Last night we sent out a robo call informing you that we had a positive case of COVID-19 reported at the high school. Because of the large number of students and staff identified as close contacts, we are shifting to remote learning starting Friday January 15th. The **schedule for Friday** will be **periods 1-5** being held at their regular time. Teachers will be meeting with students to close out the semester.

All remaining **final exams** for the first semester are canceled. However, if you have a final project that needs to be submitted or work that you were making up to hand in please ask your classroom teacher on Friday how they would like you to proceed. We are going to hold off closing grades for semester one and will communicate with you what the new date will be via student email.

Second semester classes will begin on January 20th and will be fully remote for that week. Students please check PowerSchool for your schedule. Your teachers will send you the link to their Google Classroom. Should you have any materials from semester one/quarter two that need to be handed in to your teacher you can drop them off at the main office during the hours of 7:00 am- 3:00 pm, Monday through Friday. Likewise, if you are a remote student and have new material to pick up you may do so during the hours previously mentioned.

If you are a student who attends **MMTC** and have not been identified as a person of close contact (you would have received a call on Wednesday night) then you can attend MMTC. You will be responsible for providing your own transportation. Please connect with your instructor if you are not planning to attend MMTC over the next week.

I would encourage students to check the high school website for updates as well as their school email.

We will return to in person classes on Monday, January 25th. Should you have any questions please feel free to reach out at your convenience.

Stay well
Paula Callan
